Wax Care Spray

1 l

Basic and maintenance care for floors and furniture. For surfaces made of wood, cork, linoleum, laminate, stone and smooth leather

- Crystal Clear Ingredient Declaration (www.biofa.de)
- Made with natural raw materials *
- 98% renewable *
- Solvent-free and biodegradability
- Semi glossy and refreshing
- Dirt repellent and diffusible
- Without chemical preservatives
- Tested for material compatibility by the Fresenius Institute

Properties:

Wax Care consists of natural raw materials such as carnauba wax and is recommended for the basic and maintenance care of oiled, waxed and lacquered wood and cork floors, limed wood surfaces, linoleum, vinyl and laminate floors, stone floors and furniture surfaces.
Cares for and protects surfaces against dirt and mechanical abrasion. Produces a silk-glossy surface after a short drying time. The treated surfaces are refreshed, diffusible and dirt-repellent.
Use sparingly on smooth stone floors. Even when used over a longer period of time, no unpleasant, difficult-to-remove wax layer builds up if applied correctly. Bio Wax Care can be further polished by machine after drying. Tested for compatibility on 28 different surfaces by the Fresenius Institute.

* Ingredients:

Water, carnauba wax, emulsifier, lavandin oil (contains linalool), bergamot oil (contains limonene).

98 per cent water and renewable raw materials
0 per cent mineral and metallic raw materials
2 per cent chemical-synthetic and fossil raw material

Application:

First clean the surfaces with Household Cleaner 4020. For newly treated floors, carry out the first basic care after 4 weeks at the earliest.
Spray Wax Care onto the surfaces and spread evenly with a moistened BIOFA Floor Mop 009975 or a soft, lint-free, clean cloth.
After approx. 20-30 minutes, the surface can be polished with a dry cloth or a white pad if necessary.
The further maintenance intervals depend on the type of stress on the substrate.

Warning

Polished surfaces tend to be slippery! Carry out preliminary tests!
Thoroughly clean surfaces with household cleaner before each new treatment with wax care.

Equipment Cleaning:

Clean immediately with water and possibly soap.

Storage:

Keep cool, protect against frost, and store properly sealed.

Container:

PE/PP plastic spray bottle.

Disposal:

Use up product completely whenever possible. Dispose liquid product leftovers and partially full and cleaned containers in compliance with local statutory regulations.
Only recycle fully emptied and cleaned containers.

German Waste Classification Directive [Abfallverzeichnis Verordnung - AVV] waste code iaw. European waste classification: 20 01 30

Safety instructions:

Keep out of reach of children. In case of contact with eyes, rinse thoroughly with water. In case of contact with skin, rinse with soap and water. Ensure good ventilation during processing and drying. Do not allow to enter soil, water or sewage system.

Safety data sheet available on request.

GISCODE: GE 10
